WINTER CATALOG 94/95

ACES OF THE DEEP / KING'S QUEST VII / KAD'S TYPING /
FOOTBALL PRO '95 /
CELEBRATING FIFTEEN YEARS OF TECHNICAL & CREATIVE
ACHIEVEMENT, SIERRA ON-LINE PROUDLY PRESENTS
THIS YEAR'S LISTING OF EXCITING NEW TITLES
AND DISTINGUISHED CLASSICS.
LODE RUNNER / FRONT PAGE SPORTS

DEAR CUSTOMER: The products in this catalog are the result of fifteen years of hard work and dedication from some very special people – the Sierra design team. I've always believed that Sierra's products should capture the personality of the product's designer. After all, companies don't produce games, people do.

That's why Sierra's goal as a company has always been to provide our designers with the resources they need to bring their product vision to life as directly – and completely – as possible.

Our designers are *passionate* about the products they produce. In fact, our designers were chosen because of the passion and excitement I saw in their eyes as they described the product of their dreams.

I wish that each of you could personally sit across the table from Jane Jensen as she describes the world from her *Gabriel Knight* series. Or Damon Slye as he talks about

reproducing what it felt like to be an Ace. Pat Cook is the *Front Page Sports* series. And it's impossible to talk to Al Lowe without laughing.

Roberta, my wife, feels she knows and grew up with the characters from her *King's Quest* series. And Elon Gasper's eyes just light up whenever he talks about educational software. In fact, he can talk for hours about his vision of using computers to bring personal instruction to every child in the world.

Actually, if I've done my job, you *can* meet Sierra's designers. They exist within the products on the pages of this catalog. Each of these products represents the personal vision of a Sierra designer. I think you'll agree, as you enjoy these products, that I've been very fortunate to know and work with such a special and talented team.

Thank you,

Ken Williams
President

ACES of the DEEP™

Between September 1939 and May 1945, as mankind continued to push the boundaries of war beneath the surface of the great oceans, Germany launched over 1,000 U-boats into combat against the Allies. These submersible war machines prowled the stormy seas, striking without warning as deadly phantoms of the deep. As the commander of a U-boat you stalk the enemy in a battle where the hunter quickly becomes the hunted. Attempt to strangle shipping lanes and outmaneuver convoy escorts. React as technological advances, such as sonar and radar, wreak havoc with your mission.

“
Aces of the Deep sets the standard for submarine simulations, perhaps even simulations in general.
”

FEATURES

- Gouraud-shaded subs and ships in a fantastic 3D environment with rolling waves, whitecaps, fog, clouds and weather effects.
- Amazing special effects including explosions, burning ships and dramatic sinkings.
- Evolving technology and tactics used by each side, such as new weapons, detection systems and counter measures.
- An arsenal of six torpedo types, including pattern running and acoustic homing.

*DOES NOT INCLUDE MISSION BUILDER

BEHIND THE SCREENS

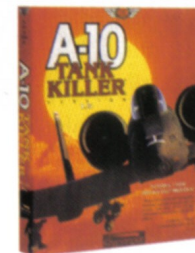

DAMON
SLYE

One of our goals with *Aces Over Europe* was to differentiate it from previous games in the *Great War Plane* series: *Red Baron* and *Aces of the Pacific*.

We started by featuring aircraft unique to the European Theater – like the Spitfire, Tempest and Focke-Wulf 190. As in our previous flight sims, we put a lot of effort into replicating the air combat tactics of each aircraft. In the Pacific, differences in aircraft design led to differences in combat. But in Europe, the aircraft were closely matched – which led to a more balanced (and interesting) fight.

We also made some technological improvements – like the use of a higher graphic resolution, 320 x 400. (That's twice the resolution of other *Great War Plane* games.) So you get crisper, more realistic images from the cockpit. I hope you enjoy it!

“For my money, there's no plane that's more satisfying than the ol' Warthog.”

GAME PLAYERS

RED BARON®/A-10 TANK KILLER™ BUNDLE

Two great products with an on-line CD manual.

MS DOS CD ▶ \$49.95

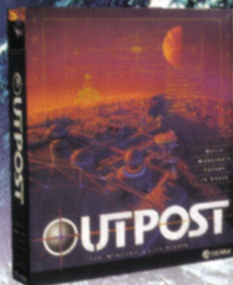

Experience the realistic flight simulation that's made *A-10 Tank Killer* an instant best seller! Known as the Warthog, it's the ugliest, most indestructible plane ever built. Rip apart enemy tanks with your 30mm "tank killing" cannon, fly through smoke-filled battlefields, dodge spectacular midair explosions and more. Fly in 21 missions, including 7 all-new Persian Gulf missions from Operation Desert Storm.

“
Absolutely the best
science fiction software ever published!”
”

KEITH FERRELL, OMNI MAGAZINE

The Earth has been destroyed by a catastrophic event, and it's your job to rebuild civilization on another planet. Where you go and if you survive is up to you. Shape a new society, sustain life in hostile atmospheres, build and control the growth of your colony – there's a whole galaxy of possibilities. Develop agriculture, mining and manufacturing in order to survive, then

create recreational facilities to make life more comfortable for your colonists – hopefully they'll be around long enough to enjoy them. Because in the end, the decisions you make will determine the destiny of mankind. It's based on current NASA research in planetary science, robotics, terraforming and interstellar spacecraft design.

Outpost places you in control of the most comprehensive strategy simulation ever developed for the PC.

THUNDERING ROBOTIC COMBAT FOR THOSE WHO HAVE

THE GUTS!

Battledrome puts it all on the line as mighty Hercs fight one-on-one for power, pride and money. Strategy and tactics count as much as firepower in this virtual-reality combat arena. You choose your Herc, its weapons, the arena conditions, the level of battle, and the amount to wager.

BATTLEDROME

Bet for prize money to build your own arsenal of Hercs. Or in desperation, bet your Herc! **Battledrome** is modem and network ready. Challenge anyone, anywhere in head-to-head combat. Or, pit your Herc against the best of the computer generated opponents in **Battledrome's** own network universe. But either way, only one fighter can be ranked #1. **Battledrome** – blast into the MetalTech era!

FEATURES

- Intricate articulation takes these Hercs to an all new level of robotic animation.
- Modem and network ready for one-on-one combat with anyone, anywhere.
- Camera remotes and heads-up-display for absolute awareness of your environment.
- Ten Herc chassis and broad weapons arsenal for customization and power building.

a magical
adventure
you'll never
forget.

ROBERTA WILLIAMS

A lot of people wonder just what an adventure game is. Strictly speaking, it's an interactive story told on a computer, whereby the player gets to play the part of the protagonist and to feel a master of the story's world. The idea is to make the story more "real" than with traditional methods of storytelling – i.e., books, movies, plays. Like a movie, a good adventure game is a collaboration of many talented people: designers, programmers, painters, animators, musicians and increasingly... directors and actors. It's very much a team effort.

Of all the adventure games I have been associated with, the nearest and dearest to my heart is the *King's Quest* series. It means a lot to me because it reflects my own beliefs in traditional moral values, while combining many of the old stories, myths and legends that have come down to us through many generations. *King's Quest* really contains a simple but important message: good wins over evil. Honesty, decency and integrity will always triumph over deceit, violence and revenge. But, morality aside, I would like to add that, at heart, *King's Quest* is just a good, old-fashioned, rip-roaring adventure yarn... one that people of all ages can enjoy.

PHANTASMAGORIA

It seemed like a dream come true for Adrienne Delaney and Don Gordon. A beautiful estate, on its own private island. The perfect place to build a life together. But an ominous presence lurks within the halls, the rooms, and every passageway of

this mysterious home. The previous owner, a 19th-century master illusionist, left behind a twisted trail of terror. Very quickly, the blissful life Adrienne and Don hoped for begins to unravel into a macabre nightmare. With your help, Adrienne must

uncover the clues and gather the objects she needs in a desperate attempt to save her husband from an insidious evil that holds him in its ever-tightening grip. Discover the mansion's hidden rooms, explore the island, and try to find the mystery man who holds the secret to the past. *Phantasmagoria* provides heart-thumping terror at every turn. You'll experience this nightmare as if it were your very own.

FEATURES

- A captivating story unfolding in book-like chapters fraught with classic horror and modern psychological terror.
- A compelling, terrifying experience, more frighteningly realistic than any adventure game yet written.
- Professional actors filmed for increased realism and thoroughly believable character portrayals.
- An ultra-realistic 3D rendered world in which Adrienne, your character, has free movement.
- A hauntingly beautiful soundtrack, fully orchestrated with a 135-voice choir.

*A sinister
game in the style
of Edgar Allen Poe,
Alfred Hitchcock,
and Stephen King.*

SPACE QUEST COLLECTOR'S EDITION

THIS VERY SPECIAL

COLLECTION FEATURES EVERY SPACE QUEST
GAME EVER RELEASED.

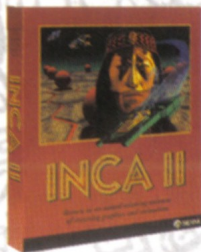

You'll own the entire Space Quest collection, from the original Sarien Encounter published in early 1986 to the most recent installment, Roger Wilco: The Next Mutation. In addition to the games, you'll

get a background video on the history and designers of the Space Quest series. You'll also get multiple versions of some games that have been updated over the years. For instance, play the first Space Quest in its original form with a text-input interface, or in its modern incarnation with the push-button

command bar. Also included: original pieces of "blooper" Space Quest software and a special "Sneak Peek" at the upcoming Space Quest VI to be released in February 1995. It's a stellar assortment for any serious Sierra game fan!

INCA II

Eldorado, who became Great Inca during his first Inca adventure, has ruled peacefully for many years. But now a mysterious asteroid is menac-

ing the harmonious balance and it seems likely that Aguirre, the conquistador, has managed to gain control of the asteroid's rapidly increasing power. Atahualpa, the young and impulsive son of Eldorado, sets out to tackle the new threat despite the advice of the sages of the Great Council. Soon Eldorado himself is again in the middle of the struggle, racing against time to acquire the wisdom and power necessary to defeat Aguirre.

FEATURES

- Intriguing puzzles based on ancient Inca folklore.
- Exciting arcade sequences using flight simulation technology that will rivet you to your seat.
- Beautifully photo-digitized scenes, outstanding video-captured sequences and a sensational original soundtrack.

FEATURES

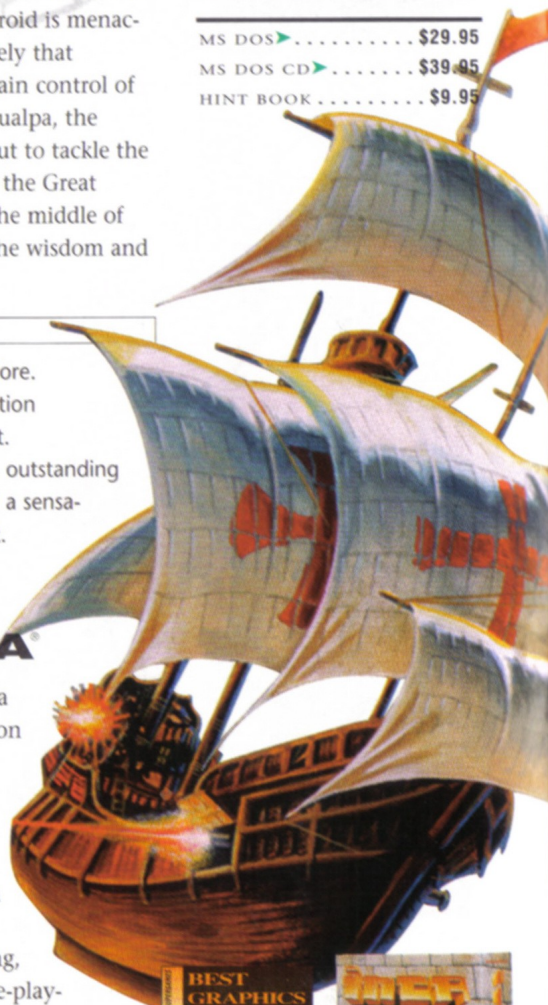

- Sensational new-age stereo soundtrack with authentic Inca instruments.
- Motion-picture quality, video-captured actors and action.
- Challenging puzzles of ancient Inca folklore and exciting arcade sequences.

INCA

Set out on a mystic mission across space and time in this high-powered combination of complex puzzle solving, mythical role-playing and outer space battle simulation. Rocket across galaxies, battle space age conquistadors and unravel intricate and ancient mysteries as the champion of the lost Inca Empire.

THE DAGGER OF AMON RA™

In this Laura Bow mystery from Roberta Williams, our intrepid heroine is trapped in an imposing museum in the dead of night. Worse yet – she's surrounded by socialites, miscreants, thieves... and a cold, relentless murderer. What is the ancient secret of the *Dagger of Amon Ra*, and who is willing to kill for it? What's the motive for murder? Greed? Religious outrage? Patriotism? Rivalry? Laura Bow, cub reporter for a major New York newspaper, better find out – *and fast*.

FEATURES

- Intricate, multi-layered story line with several different possible endings.

Choosing the right software for your child.

While you may know the ropes when it comes to choosing books for your child, picking out the right computer programs may not be so easy. Here are a few tips to help you make the right choice for your child.

• Look for games that match your child's learning stage.

As a parent, you know that no two children learn and develop in the same way. That's why it's important to look for games that will allow your child to grow at his or her own rate. Software that's designed to meet and challenge your child's abilities will ensure learning and continued interest. Make sure to check the box or game description for recommended age and skill levels.

• Pick software that is educational and entertaining.

While computer games should be fun, they should also challenge your child's analytical and creative skills. Look for interactive software that lets your child explore several different problem-solving approaches.

• Look for a point-and-click interface.

There's nothing that pleases a child more than saying "I can do it all by

myself!" With point-and-click interfaces, children will be able to play the games — even if they don't know how to type or read yet.

• Find games that interest you.

Ask yourself: What do I like in a computer game? Vivid graphics? Challenging story lines? Engaging characters? Chances are, whatever you like your child will like too. Choose games that look genuinely interesting — and not just "good for your kids."

• Choose a software company you can trust.

At Sierra, we take your child's education seriously. That's why we've placed a strong emphasis on creating quality games for children that entertain while they teach. Plus, all Sierra games come with a 30-day money-back guarantee. There's no risk. Follow these tips, and finding the right software will be child's play you'll both enjoy!

KID'S CD SAMPLER

See for yourself how Sierra's award-winning *Talking Tutors* series can teach your child in a challenging and fun way. With the *Kid's CD Sampler*, take a cost-effective "hands on" look at six highly-acclaimed interactive, multimedia educational products, all on one convenient CD. The titles include:

GET THE CD ADVANTAGE.

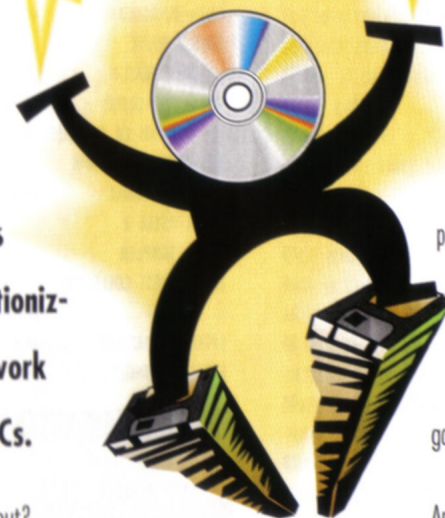

Flip through any computer magazine and you'll see that CDs are quickly revolutionizing the way we work (and play) with PCs.

So what's all the hype about?

POWER — pure and simple.

Just one CD can hold up to 600 megabytes. That's the equivalent of over 400 floppy disks!

That means you'll be able to get all the best multimedia effects — like graphics, sound and animation — without having to find room on your hard drive to install them. And that's something everyone who's

Season, *MetalTech*: *EarthSiege*, *Gabriel Knight* and *Phantasmagoria* are packed full of voice actors, stirring soundtracks and a whole new cinematic approach to game playing.

And this is just the beginning.

ever run out of hard drive space will appreciate!

In fact, so many computer users are discovering the power of CDs that new titles are popping up at an amazing rate.

And Sierra is setting the pace by developing new and exciting CD-based products all the time!

Games like *King's Quest VII*, *Aces of the Deep*, *Police Quest: Open*

Every day, CD technology opens up tremendous new opportunities to make electronic adventures more creative, complex and exciting than ever before!

Yes, the era of CD gaming has definitively arrived, and it promises to bring some of the hottest Sierra games you've ever seen.

And that's no hype.

THE SIERRA NO RISK! GUARANTEE

The Promise: We want you to be happy with every Sierra product you purchase from us. Period. If for any reason you're not pleased with any product, return it within 30 days for an exchange or a full refund... EVEN IF YOU BOUGHT IT RETAIL!

The Only Catch: You have to tell us why you don't like it. Otherwise we'll never get better. Send it back to us and we promise we'll make things right. (If you bought it at a retail outlet, please send your original sales receipt.)

If your software should fail within 90 days of purchase, return it to your dealer or directly to us, and we will replace it free. After 90 days, enclose \$10 and return the software directly to us.
